SOUTH EASTON, MASSACHUSETTS

IN DEDICATION

Donald H. Langley

He was a success
Who has lived well,
Laughed often and loved much;

Who has loved the
City and the country,
And the love of children;

Who has filled his niche
And accomplished his task;

Who leaves the world better
Than he found it,
Whether by an improved poppy,
A perfect plant or a rescued soul;

Who never lacked appreciation
Of earth's beauty or failed to express
it;

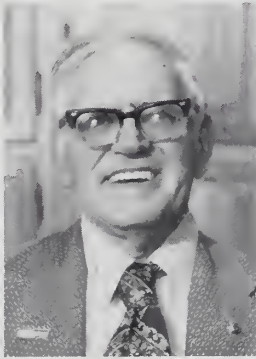

Who looked for the best in others
And gave the best he had."

Paul K. O'Leary SUPERINTENDENT

Dear Class of 1993:

Congratulations upon the successful completion of your high school career. With the graduation of the Class of 1993, it should be noted that Southeastern has completed twenty-six school years.

The success which you have enjoyed is due to the contributions of previous graduates, your conscientious effort to succeed and a dedicated faculty willing to assist you in your shop and academic studies.

In these difficult times you are indeed fortunate to have received a vocational technical education upon which to build your future.

I congratulate the Class of 1993 and wish you the best of health and good fortune in the years ahead.

Paul K. O'Leary
Superintendent

John P. Avery, Ph.D. DIRECTOR

Dear Member of the Graduating Class of 1993:

On the evening of May 26, 1993, your status will evolve from that of Southeastern student to Southeastern graduate.

With this evolution comes a new responsibility and independence. We have attempted, over the course of the last four years, to provide you with the tools necessary to complete a successful transition from an adult world centered around the "schoolhouse" to the independent world beyond. It is my hope that you have utilized these tools well and that your opportunities for success are plentiful.

There is a certain honor associated with being a Southeastern graduate. You will discover this difference as years pass on.

Best wishes and Godspeed to each of you.

HAVE A
NICE
SUMMER!

IS IT TOO LATE
TO PUT MY PICTURE
IN THE YEARBOOK?

the 1990s, the number of people in the UK who are employed in the public sector has increased by 1.5 million, from 2.5 million in 1980 to 4 million in 1995 (Department of Health 1996).

There is a growing emphasis on the need to improve the quality of care in the public sector, and to ensure that the public sector is able to meet the needs of the population. This has led to a number of initiatives, including the introduction of the Health Care Act 1999, which aims to improve the quality of care in the public sector, and to ensure that the public sector is able to meet the needs of the population. The Health Care Act 1999 also aims to improve the quality of care in the private sector, and to ensure that the private sector is able to meet the needs of the population.
